16	Voice 2 (Synth)	Synth Set SR	XLR
	Video	Computer Video Output (HDMI)	HDMI

## LIGHT & STAGE PROPS

We do have 4 LED Bars that are synced with the music via DMX. These are pretty much to create a mood close to us with our smoke machine, but are not enough to illuminate properly the venue. In-house light designer is requested and pretty much welcome. - Our sound technician will have a brief with the in-house LD about lights.

Every song has his own visuals, so a projector or a LEDwall is very important.

**Please be sure to provide an HDMI cable to the Synth Set.**

## PROPS

- Soundcheck guaranteed
- Stage changeover: at least 20 min

## HOSPITALITY

There are 3 to 6 people on travel.

The amount of the crew members will be notified when both Thalos and the agent of the venue have a mutual agreement on the show.

The crew is composed by:

- 3 people from band
- 1 merch / backline guy
- 1 FOH
- 1 live photographer

**ACCOMODATION:**

In case of venue/private accommodation/private please make sure to provide clean, comfortable place with enough beds /mattresses for 3 up to 6 people and a shower.

**CATERING**

Some drinks during the show, 4 bottles of no-freezed water just before the show, and breakfast in the morning if it's possible would be great.

**DINNER**

Dinner to be served no later than 2 hours before performance. It should be a hot meal including soup or salad and consist of nutritional and diverse food.

If this option is not available, a buyout of 10,00 £/€ per person is to be paid out to the tour manager.

**PARKING**

Please provide a safe parking-spot for our van, close to the venue's loading entrance if possible.

**MERCHANDISING**

Please provide one illuminated and big table and some chairs for our merchandise.
